# BRIGHT LIGHTS AWARDS

2019

## **Nomination**

**Continuous care: ensuring seamless transitions for patients across the continuum of care**

**Sunnybrook FHT**

**Code Orange - The Colour of Collaboration**

Mass casualties (Code Orange) usually invite images of hospitals. However, primary care can play a vital role assisting with less critical patients. After the van attack in Toronto last year, SAFHT was on standby to decant patients; however, our processes were not well integrated with the hospital's. We have done considerable work to integrate and update our processes with the emergency department (ED).
