

ASSOCIATION OF FAMILY HEALTH TEAMS OF ONTARIO

BRIGHT LIGHTS AWARDS 2021

Nomination: Small, rural, and Northern teams that have taken care

Dilico FHT and Dilico Anishinabek Family Care

Supporting the Robinson Superior Treaty Area during COVID-19

At the beginning, we organized facilities in our communities to do in-clinic, drive-through, and doorstep testing. Our team administering vaccinations ended outbreaks in several communities and we have delivered 18,000 doses through partnerships. Home supports were provided to probable and confirmed COVID-19 cases in the form of wellness checks, counselling, groceries and health monitoring. Through partnerships with pharmacies, an addictions medicine dispensary was developed so that members can receive it in community. At home delivery was done when individuals were in isolation. We introduced two new Nurse Practitioners to each specialize in mental health and addictions.
